

Crimsafe First

Featuring 0.8mm mesh

Practical Security, Entry Level Performance with Industrial Aesthetics

Crimsafe First is the entry-level product in the Crimsafe range of security screens. It has been designed and extensively tested to provide practical security for your home.

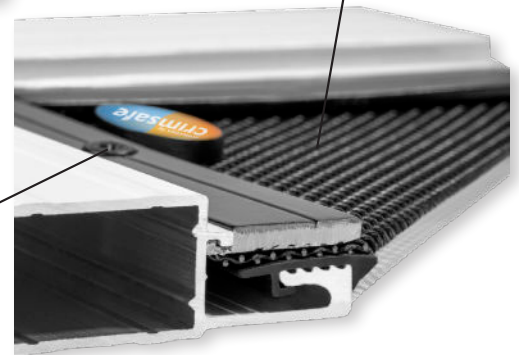

Withstanding a singular impact of up to 400 joules, our range of First products are significantly stronger than the Australian Standards, allowing you to rest easy in the knowledge that your home is safer than with any other competitor product.

With rugged, industrial aesthetics, Crimsafe First provides a great security solution to any home.

Available in a wide range of colours to suit even the most discerning homeowner, Crimsafe First also comes with an 8-year warranty as standard, giving you peace of mind for your investment.

Crimsafe First sets the baseline in security screen performance and durability.
