

Crimsafe *Ultimate* Featuring 0.9mm mesh

Redefines security screens by offering superior strength, versatility and architectural engineering.

Take your home security to the next level with the superior strength, versatility and architectural styling of Crimsafe Ultimate.

This upgraded Crimsafe screen is not only superior - it can withstand an impact that is up to seven times stronger than the level required by the Australian standard.

Crimsafe Ultimate's incredible strength is achieved through uniquely engineered features, including Screw-Clamp™ technology that secures the 304 structural grade stainless steel mesh to the entire frame with a vice-like grip. Additionally, Crimsafe Ultimate utilises twice as many screws as Crimsafe Classic, concealed within the fastening system for greater stability and strength. At the same time, a wider, stronger frame improves rigidity and jemmy-resistance against would-be intruders.

Crimsafe Ultimate security screens are available in the widest variety of applications to suit your home or lifestyle needs and come with an extended 15-year warranty for ultimate peace-of-mind.

The Crimsafe Ultimate Profile

304 structural-grade stainless steel mesh

Exclusive Screw-Clamp™ fastening system

0.9mm mesh

Up to 7 x stronger than the Australian Standard*
