

THE BEST SHUTTERS COLLECTION

PVC shutters

- 👍 Durable
- 👍 Superior insulation
- 👍 Water resistant
- 👍 Easy to clean
- 👍 Eco-friendly
- 👍 Fire retardant

Did you know?

Our Coolum range of PVC Shutters are made in Australia. These are ideal for customers that not only want to support local but also want a faster turnaround compared to imported shutters.

Security shutters

- 👍 High Security - A great alternative where shutters and security screens won't fit
- 👍 Lockable and easy to clean
- 👍 Interior and exterior options - Great for Patio Enclosures
- 👍 Option to add flyscreens¹
- 👍 10 year warranty²

Year-Round Benefits

💡 Lighting

Adjust the amount of light coming into your home by moving the louvres to suit your needs. Open the louvres to brighten up a room on those sunny Sunday mornings; Close them on rainy days and curl up with a good book.

🛡️ Security

Shutting the louvres provides privacy from prying eyes while also putting in place an extra obstacle for intruders to get through your windows and doors.

🌀 Airflow

Control airflow to a room or the whole house. Open up the louvres to let the fresh, cooler afternoon breeze in during warmer months; Close them during winter to keep the Westerly's at bay and your home nice and cozy.

🏠 Cooling

Reduces radiant heat coming through your windows, resulting in less cooling costs and a more energy efficient home.

¹Flyscreens protect you from insects not intruders, in some areas of the home that is still enough ²Warranty does not include moving components which are covered for 3 years

Shutter Applications:

PVC Shutters

PVC Shutters are ideal for bathrooms, laundries and kitchens as they handle moisture better than timber shutters.

- **Windows** - All windows in your home can have a Shutter configuration to suit.
- **Sliding Doors** - Tracking systems installed so you can have shutters in front of a Sliding Door.

Aluminium Security Shutters

Aluminium Security Shutters are ideal for areas where a Security Screen and Shutter aren't suitable separately in space.

- **Casement Windows** - retain the ability to increase airflow throughout the house without compromising on security.
- **Patio Enclosures** - increases the usability of your patio with a multitude of benefits - security, airflow, sun protection.
